

## **Fine Gardening Crew Leader**

Landscape Renovations is looking for a creative individual to effectively lead a Landscape Maintenance Crew. Duties include weeding, pruning & shearing, pest management, garden installations/renovations and some turf maintenance. Desired candidate must have knowledge of common landscape pest identification, perennial plant maintenance, container & annual planting design. Previous management experience a plus.

A positive attitude and strong communication skills to effectively lead a crew and interact with clients is needed.

This is a very fast paced position and motivated, self-starting team members will be compensated accordingly. We offer a competitive wage package with opportunity for growth and advancement.

### **Responsibilities/Requirements:**

1. Perform maintenance services detailed on work order at high level of quality and efficiency
2. Oversee and assist maintenance crew workers in performing maintenance tasks
1. Keep detailed records of all time and materials used for each task on job
2. Ability to lift 40 lbs and work in outdoor weather conditions

### **Required Certification & Training (currently have or be willing to obtain)**

1. Minnesota Department of Agriculture Pesticide Applicator's License
2. Minnesota DOT Health Card
